Illinois Families for Hands & Voices is a non-profit 501(c)3 organization.

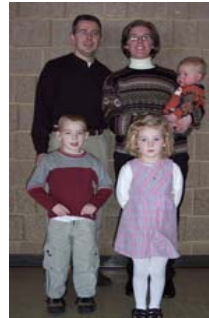

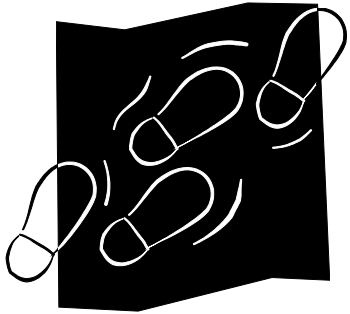

What works for your child is what makes the choice right!

Illinois Families for Hands & Voices

What is our mission?

Illinois Families for Hands & Voices is a parent-driven, non-profit organization dedicated to supporting families that have children who are deaf and hard-of-hearing without a bias toward communication modes and methodologies. We want to provide Illinois families with the necessary resources, networking, and information in order to improve communication access and educational outcomes for their children. Our statewide activities, advocacy efforts, and parent/professional collaboration are all focused on enabling our deaf and hard-of-hearing children to reach their fullest potential!

Who are we?

We are families with children who have all types of hearing loss. We are families who use many different methodologies to communicate. We are deaf and hard-of-hearing adults. We are professionals. We are from every corner of the state of Illinois. We are united, because we are Hands & Voices.

Families can learn about the variety of resources and options available to them and how to access them. Through this network of resources, families can make informed decisions about their future in regards to educational options, the changing landscape of assistive technologies, and many other issues facing families with deaf and hard-of-hearing children.

Families within the same geographic region within the state can share experiences and information as they support each other. They will be given the opportunity to gain knowledge and direction from families who have faced the same challenges and choices.

Tell us who you are

As a member of the Illinois chapter you will receive both the Illinois and national Hands & voices newsletters.
