Alexander Graham Bell Montessori School (AGBMS)-AEHI, is a not-for-profit organization dedicated to empowering individuals who are deaf or hard of hearing to achieve age-appropriate language, literacy, and overall academic skills through unique educational options.

AGBMS is a model full-inclusion program where we provide the combined benefits of: a challenging, mainstream Montessori curriculum, made fully accessible by Cued Speech; individualized and small-group instruction; unlimited opportunities for interaction with hearing peers; and an intense focus on oral communication skills. In addition to our regular staff of certified teachers, we employ a team of specialists, including certified teachers of the deaf, speech/language pathologists, an Auditory-Verbal and Listening and Spoken Language therapist, Early Interventionists, and a learning behavior specialist, all of whom provide on-site therapeutic and educational services in accordance with each child's IEP or IFSP.

Whereas AGBMS is the educational arm of our organization, AEHI is the outreach arm. AEHI provides Cued Speech Workshops (and Cue Camps!), individualized parental training and support, educational consulting, professional development opportunities, and access to a wide variety of information on Cued Speech and its benefits.

Every Day a Miracle!
